SUMMARY

Since 2023 I build and run the systems of BIAMAQ, an industrial machinery company with 3 branches: a rental platform, an ERP-connected sales assistant with recommendations, ETL into a data warehouse and management's BI platform. Final-year Information Systems Engineering student at UTN; exchange semester at CESI, France.

EXPERIENCE

Software & Data Engineer · IT Lead — BIAMAQ SRL Nov 2023 – Present

Industrial machinery, 3 branches · Full-time · Remote, Argentina

- Led the re-engineering of the rental module into RentalIA: booking, tablet-signed PDF contracts, returns, workshop and ARCA e-invoicing, synced with the ERP or standalone.
- Built BIAMAQ Sales, a tablet sales assistant connected live to the ERP, with recommendations learned from sales history (top-3 hit rate from 32% to 40% in temporal validation) and nightly retraining.
- Built BIAMAQ Reports, the BI platform management uses daily: sales, purchases vs sales, 80/20 customers, receivables aging and workshop stock. Also maintain Power BI dashboards.
- Built ETL pipelines that load the SQL Server ERP into a data warehouse (sales, purchases, stock, receivables, service and rentals), with daily loads and monthly snapshots scheduled with Celery.
- Run the infrastructure: Docker on Linux servers and CI/CD with GitHub Actions on a self-hosted runner.

Django REST Framework · PostgreSQL · SQL Server · React · Playwright · Docker · Python · Pandas · scikit-learn

SELECTED PROJECTS

Last.fm Data Platform — Personal project · Data Engineering github.com/deadour/lastfm-data-platform

Data platform over ~117k listening events: incremental API ingestion with resumable backfills, Bronze/Silver/Gold layers in Parquet, MusicBrainz enrichment and a Streamlit dashboard.

Python · Parquet · Last.fm API · MusicBrainz · Streamlit · pytest

Chedul — Team project · UTN · Team of 3 chedul.vercel.app

Degree planner for UTN students. Led the migration from Django to a Go REST API and a React + TypeScript SPA, with Testcontainers integration tests; deployed on Cloud Run and Vercel.

Go · React · TypeScript · Vite · PostgreSQL · Docker

EDUCATION

Universidad Tecnológica Nacional (UTN FRRe) — Resistencia, Argentina Final year in progress

Information Systems Engineering

CESI École d'Ingénieurs — Rouen, France Spring semester 2026

International academic exchange · Data Science master's programme · ARFITEC scholarship

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, Go

Backend: Django, Django REST Framework, FastAPI, Celery, Redis, REST APIs

Data: SQL Server, PostgreSQL, Pandas, Parquet, ETL, Data warehousing, Power BI, Streamlit

Frontend: React, Next.js, Vite, Tailwind CSS

Infrastructure & testing: Docker, Linux, Nginx, GitHub Actions, Google Cloud Run, Vercel, pytest, Playwright

CERTIFICATIONS

Programación Web Full Stack — Argentina Programa, 2023

Inglés Técnico para Desarrolladores de Software — Nivel 6 — Centro Universitario de Idiomas (CUI), 2023

LANGUAGES

Spanish (Native) · English (B1) · French (A2)
