

PERSONAL PROFILE

Advanced **Information Systems Engineering** student focused on Data and Backend development. Experience in:

- **Backend Developer** with expertise in Python, Django (DRF), and SQL.
- Design and automation of **ETL pipelines** using Pandas and Celery.
- **Application deployment** in Linux environments using Docker.
- Experience as a **Project Manager** (Trello) and **Data Analyst** (PowerBI).
- **Database Administration** (SQL Server) and **Data Warehouse** Design.
- Secondary **Fullstack** Stack: React, Angular, NodeJS, Google AppSheet.
- Programming: Python, SQL, JavaScript, TypeScript, Java.
- AI Coding Tools: Utilizing Codex and Claude for efficient development.

LANGUAGES

- SPANISH (NATIVE)
- ENGLISH (B1 LEVEL)
- FRENCH (A2 LEVEL)

EXPERIENCE

BACKEND & DATA ENGINEER / PROJECT MANAGER

BIAMAQ SRL | November 2023 - Present

- Leading the **end-to-end** design and implementation of a comprehensive **Business Intelligence** platform, unifying data from Sales, Stock, Service, and Equipment Rentals.
- **Backend (Python/Django)**: Developing APIs with Django REST Framework for business logic and consumption by the frontend (React).
- **ETL (Pandas/Celery)**: Creating automated pipelines (with Pandas) to process data from SQL Server and populate a Data Warehouse.
- **Infra (Docker/Linux)**: Containerizing and deploying all services (Django, Celery, Nginx) on a Linux server using Docker.
- **Project Management**: Led the re-engineering of modules (Rental, Service) using agile management (Trello) and optimizing processes.
- **BI**: Generating reports in PowerBI and developing internal apps with Google AppSheet.

EDUCATION

CESI ÉCOLE D'INGÉNIEURS - ROUEN, FRANCE

January 2026 - June 2026

- International Academic Exchange Program (ARFITEC Scholarship)
- Coursework focused on IoT, Web Development, Data Science, AI, and engineering group projects.

NATIONAL TECHNOLOGICAL UNIVERSITY (UTN)

- B.S. in Information Systems Engineering - last year in progress

INFORMATARIO CHACO - STAGES 1, 2 & 3

August 2022 - December 2023

- Applied Technologies: HTML, CSS, GIT, Python, SQL, Django, Java, SpringBoot; React, QA Testing

ARG. PROGRAMA - WEB DEVELOPMENT

March 2022 - January 2023

- Applied Technologies: HTML, CSS, Bootstrap, JavaScript, Angular, TypeScript, Java, NodeJS, SpringBoot.

ARG. PROGRAMA - TESTING

February 2023 - April 2023

- Manual, agile, and tool-based testing. Skills: API testing, SQL

UNIVERSITY LANGUAGE CENTER (UBA)

- Technical English for Software Developers

UDEMY

- Data Analysis and Business Intelligence (2024)
